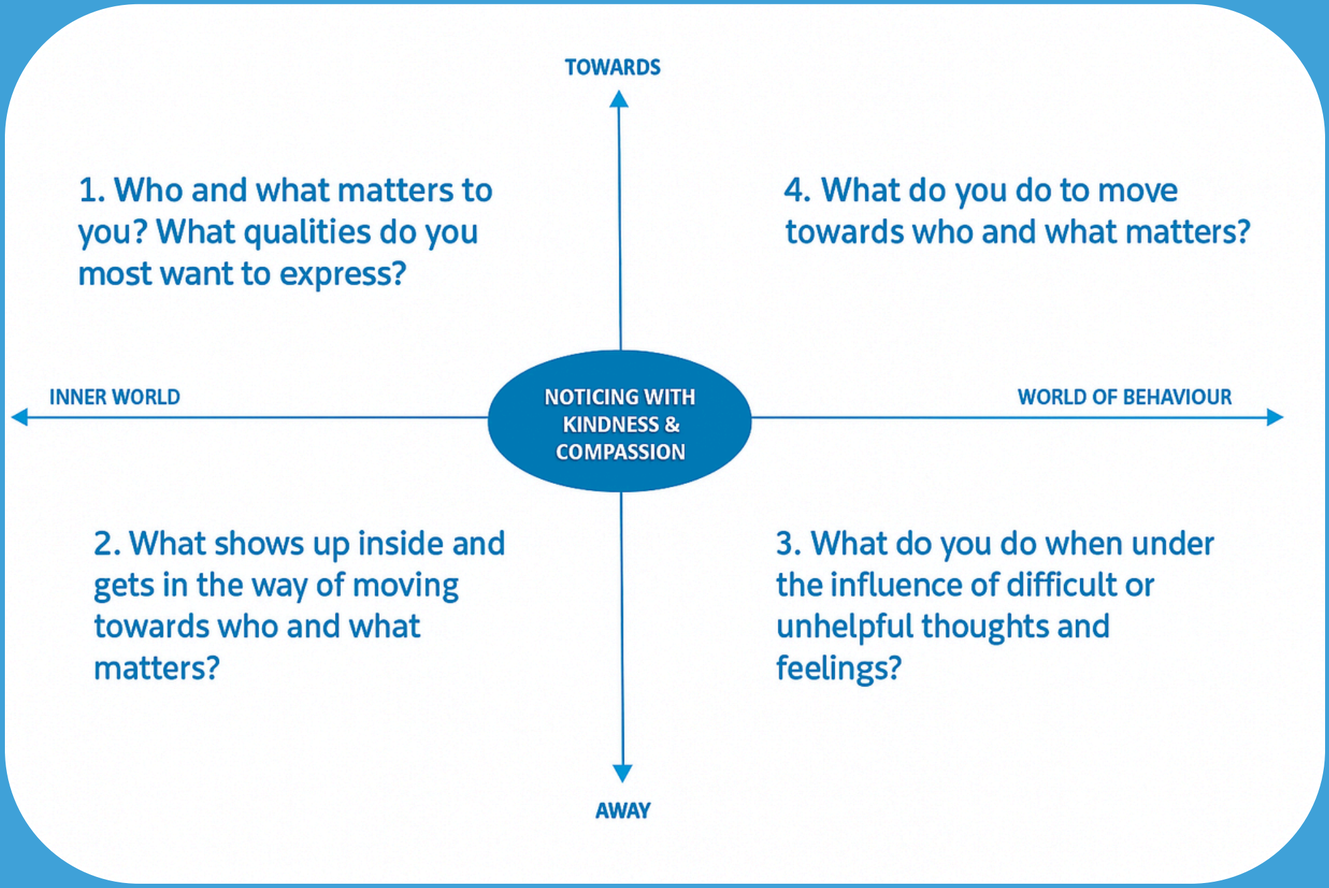
Acceptance Commitment Therapy

ACT helps people accept what they cannot change, focus on what matters most, and take action toward those values, even if uncomfortable thoughts or feelings are present.



The ACT Matrix.

ACT Matrix

Step 1: Clarify Values and Goals
Clients reflect on what truly matters to them—their values, priorities, and aspirations. This helps identify the direction they want to move towards in life.|

Step 2: Recognise Inner Barriers
Clients explore the difficult thoughts, feelings, or self-doubts that arise and interfere with pursuing what matters. This builds awareness of internal obstacles.

Step 3: Notice Behaviour Under the Influence of Struggles
Clients consider how they typically respond when caught up in unhelpful thoughts or emotions. This highlights avoidance patterns or unhelpful behaviours.

Step 4: Choose Values-Driven Actions
Clients identify actions that align with their values and move them closer to who and what matters, fostering resilience and purposeful behaviour
